SKILLS

I have over 10 years of experience in **product design**, including **wireframing**, **user experience design**, **visual design**, **prototyping**, **contributing to design systems**, and **leading team collaboration**. I have also led **UX research** initiatives, and I use my **coding skills** in frameworks like **Vue** and **node.js** for everything from contributing to prototypes to shipping product improvements.

WORK EXPERIENCE

Freelance Design, Illustration & Data Vis.

Oct 2020 – Present

My freelance work has included visual design, branding, web design and strategy for local political campaigns, illustrations for the SF Chronicle, web app design and implementation for the SF Transit Riders, and more.

Remix: Lead Product Designer, Transit

Oct 2018 – Sep 2020

As the lead product designer for Remix's transit planning product, I designed and shipped new features allowing planners new ways to visualize transit data and create presentation-ready maps for the public.

Airbnb: Experience Designer

Oct 2018 – Sep 2020

Projects included features for guests with a disability to find a place to stay, better ways for professional hosts to manage many listings at once, and improvements and design updates to the search experience.

Vurb/Snap, Inc: Product Designer

Feb 2016 – Oct 2016

Expedia: Mobile Product Designer

April 2011 – May 2015

PROJECTS

Election Map SF

electionmapsf.com

This website provides detailed maps of election results in San Francisco, updating live as results come in. It has been featured in the SF Chronicle.

Transit Supply

transit.supply

I design and sell public transit-themed art on my shop, shipping over 7,000 orders to customers.

Transit Recovery

transitrecovery.com

I designed this website showing data visualizations of how transit service levels and ridership have recovered from COVID-19, and created the pipeline providing the data.

Mapsicle: Figma Plugin

I designed and coded this Figma plugin that makes it easier to include Mapbox maps in mockups. It was featured in Figma's plugin launch.
